Activities at home

Dear Parents/Carers,

Below is our focus for the week beginning; 8th July 2013

Flight

The areas that will be covered are;

Design and make kites to fly in the garden

Construct rockets from junk modeling

Create an airport in the role-play area:

Control Centre for the planes-Check in desk for the pilots

Make a large scale rocket to use to fly to the moon.

Sing songs related to flying and use musical instruments

Look at books and discuss things that fly.

Talk about what we can see in the garden that take flight

If you would like to follow this up at home, here are a few ideas you might like to try; Discuss at home what you can see in your garden that takes flight. Design and make your own kites, experiment with different materials and see which works best. Make paper aeroplanes and see who's go the furthest.
