Activities at home

Dear Parents/Carers,

Below is our focus for the week beginning; 10th February 2014

How?

The areas that will be covered are;

- ◆ Invite the children to create a divers oxygen tank using junk modelling and then role-play being under the water and looking at how we can breathe under water.
- ◆ Provide a range of objects that work in different ways- egg whisks, timer, torch, radio etc. and investigate how they work.
- ◆ Provide activities where change happens over time, growing, melting.
- ◆ How do you tell the time?

If you would like to follow this up at home, here are a few ideas you might like to try: Talk about time at home, what time is it when you get up, what time is it when you have breakfast?

Encourage your child to ask How questions.

Allow the children to investigate old phones and clocks, let them take them apart and explore the insides. Only if you do not want to use it again!
